

# Creature from Outer Space?

**This headband is perfect for a space alien.**

Use your imagination to create a headband that makes you a creature from outer space. What kind of space alien would you like to be? Funny? Monsterlike?

This is a fun adult-and-kid craft. Grown-ups can do the cutting and assembling of the craft; kids will enjoy decorating and deciding how wild or scary or humorous to make the pattern.

## **What You'll Need:**

- Poster board in different colors
- Pencils or markers
- Double-stick tape
- Scissors
- Goggle eyes
- Round-cord elastic

## **How to Make the Creature from Outer Space Headband:**

**Step 1:** Make a pattern, starting with a 1-1/2 x 14-inch rectangular band.

**Step 2:** Add two squiggly lined projectiles, approximately 7 inches tall, along one long edge, positioning each slightly off-center. If desired, draw two smaller projectiles in part of the remaining space.

**Step 3:** Draw another, same-sized band and add two projectiles, slightly off-center to the projectiles on the first band; cut both patterns out.

**Step 4:** Trace patterns onto two different colors of poster board; cut them out (see photo).

**Step 5:** Add goggle eyes where desired to complete your look.

**Step 6:** Punch holes near the ends of the band and tie closed to fit around your head with a piece of round-cord elastic.
